

WASHINGTON, D.C.--Today, Representative Xavier Becerra (CA-31), Vice Chair of the House Democratic Caucus, released the following statement after learning that Arizona Governor Jan Brewer had signed SB 1070 into law:

“This deeply disturbing new law in Arizona will result in innocent people being harassed because of the color of their skin or the intonation of their voice.□ The days of this type of discriminatory law should be long gone. The American people want a real solution to our broken immigration system that reflects our shared values and our unique history as a nation of immigrants.□ The time is now to enact comprehensive immigration reform.”
